MS AMLIN LAUNCHES NEW MINI FLEET PRODUCT ON ACTURIS

London – 8 May 2017

MS Amlin, the specialist global insurer, is pleased to announce the launch of a new Mini Fleet product through the Acturis e-trading platform. This follows the successful launch of both UK Commercial Combined and Property Owners last year, and is part of a wider strategy of giving brokers the option to e-trade SME products with MS Amlin in ways that suit them.

The Mini Fleet product has been designed specifically for clients with Fleets of 3 to 20 vehicles, and gives brokers the ability to bind cover for more than 2,000 trades across a wide range of industries in the UK.

MS Amlin has strong growth ambitions in the UK SME marketplace and is working with brokers to develop its overall proposition to meet the ever changing needs of brokers and clients.

Grant Thompson, Head of Commercial at MS Amlin, commented: "The launch of our Mini Fleet product is another significant step in developing our e-trading capability. The product has been developed by a highly-experienced team of underwriters and designed specifically for clients looking for comprehensive and flexible cover for a wide range of fleet types."

Thomas Stuart, Insurance Development Director at Acturis, adds: "Acturis is excited to have launched the Minifleet product with MS Amlin. This is a significant addition for Acturis brokers, offering an ever growing panel of industry leading products. We look forward to working closely with Grant and his team at MS Amlin as we look to release further products together this year."
