Supported by a swift proactive claims service

MS Amlin Advance is one approach we use to deliver our bespoke and dedicated claims service. The initiative involves advancing funds to clients as soon as possible following major loss events.

To date we have advanced in excess of USD\$100m.

How it works

- When a catastrophe loss is notified, our underwriting and claims teams collaborate with our client to agree the level at which MS Amlin will offer advanced funds
- Payments may also be advanced in multiple tranches as a complex loss develops
- Funds can be advanced to the Lloyd's broker, international broker or direct to the client
- Communication and partnership with our brokers and clients is paramount
